Will Glover, Mike Peregrine, Addie Green, Wayne Powell, and some of the TC Running crew "Run the Toxic Trail" on July 16, 2016 for along the C-44 canal from Port Mayaca on Lake Okeechobee to Stuart Beach to raise awareness of the devastating impact on the Indian River Lagoon Estuary caused by the release of polluted, phosphate-enriched fresh water and blooming algae. Glover, Peregrine, and Green ran the entire 37-mile route to illustrate the distance that the pollution travels to the fragile estuary and the minimal time it takes to damage the most bio-diverse estuary in the Northern Hemisphere.
